<b>COAL PRODUCTION</b> <b>(Millions of short tons)</b>

Coal production <sup>A</sup> for entire State:			
<b>Annual Period</b>			
<b>2000</b>	24.891	4.175	<b>29.066</b>
<b>2001</b>	29.200	7.800	<b>37.000</b>

<b>Total</b>	<b>81.795</b>	<b>20.135</b>	<b>101.930</b>

A Coal production as reported in this table is the gross tonnage which includes coal that is sold, used or transferred as reported to OSM by each mining company on form OSM-1 line 8(a). Gross tonnage does not provide for a moisture reduction. OSM verifies tonnage reported through routine auditing of mining companies. This production may vary from that reported by States or other sources due to varying methods of determining and reporting coal production. **Provide production information for the latest three full calendar years to include the last full calendar year for which data is available.**
